**SMBR:** Lino Rivera    **SWS DIRECTOR:** William E. Rhodes

This project consists of adding topsoil and Bermuda grass seeding over the former Zilker Landfill as a means of permanent erosion control. The Zilker Landfill is located in the 2300 block of Stratford Drive, and is bounded by the hike and bike trail to the south, Stratford Drive to the north, the Mopac bridge parking area on the west, and Lou Neff Road to the east. This area is used by the Parks and Recreation Department as an overflow parking area for events at Zilker Park.

Within the last year, fill material, obtained from the City Hall excavation, was brought in to keep storm water from collecting over the landfill area. This fill material is graded to shed the storm water to existing drainage features. The permanent erosion controls associated with this project will keep the fill material from silting and washing away during rain events, and provides a suitable surface when the area is needed by the Parks Department. The contract provides sixty calendar days for completion of the project.

Bids were opened on March 21, 2002. Bids documents were distributed to eleven contractors. Robert Jentsch Construction. submitted the lowest of seven bids received:

Robert Jentsch Construction, Inc.	\$62,150.00
Travis Paving & Excavating Co.	\$72,500.00
SJC Construction, Inc.	\$99,975.00
Camp Excavation	\$123,000.00
J.N.M. Construction	\$127,773.00
Ranger Excavating	\$145,775.00
Southwest Corporation.	\$159,240.00

This contract is in compliance with the 1996 M/WBE Ordinance, as amended. No goals were established for this project.
